

Dope House

The Dayton Family

The dope house, the coke house, the dope, that's what I'm talkin bout

The feinds out, hustlas on the block livin they dreams out

With glocks out, every now and then they bust they shots out

With they rocks out, hustlas hustle daily boomin they spot out

They schemin layin feindin on your drive way

So tell them feindin ass niggas to hit the highway

They nervous, quick to post at your window for some service

Like purvis, throwin away their life now they worthless,
