

Bonneville

The dB's

There's one place I've never been
And I'd like to be and that's Bonneville
There's one place I've never seen
And I'd like to see and that's Bonneville
Don't ask me why
I can't even try
To explain what it is about Bonneville

I don't know but I hear tell
That it's hot as hell in Bonneville
Very hot and very flat
And that is that in Bonneville
Take out your maps
And then look for the Flats
You'll know just where you're at
You're in Bonneville
Bonneville

Where I come from it's so different
Once I get there I will see for myself

One day soon I've got to go
I know I'll go to Bonneville
I'll see it there in front of me
And behind of me and beside of me
And the heat gets so dry
I get sand in my eyes
Maybe then I'll realize I'm in Bonneville
Bonneville
Bonneville

There's one place I've never been
And I'd like to be and that's Bonneville
There's one place I've never seen
And I'd like to see and that's Bonneville
There's one place I've never been
And I'd like to be and that's Bonneville
There's one place I've never seen

Don't ask me why
I can't even try
To explain what it is about Bonneville
