

Christmas Time

The dB's

I can't believe it's Christmas time
Where is the year we left behind?
The summer went so fast
The fall went roaring past
And we watched it disappear

Last New Year had a master plan
And now it's Christmas time again
We went to every state
To find out just how great it is
Right here at home

Time stands still at Christmas
Always will at Christmas
How we feel at Christmas
Time stands still
Christmas time

I guess I let it get me down
You're far away in your hometown
I stayed out all night long
And when I saw the dawn it was
Wintergreen and red

Time stands still at Christmas
Always will at Christmas
How we feel at Christmas
Time stands still
Time stands still

Time stands still at Christmas
Always will at Christmas
How we feel at Christmas
How we feel at Christmas
