

# Death Garage

The dB's

What happens when the night time comes  
The little lovers light their lamps and then they sing  
In the death garage (and then they sing)  
In the death garage

My hot rod had waterbed suspension  
Elegant meat-locker design  
In the death garage (you'll find it there)  
In the death garage

Start the car  
Close the door  
There is nothing quite like  
Going out in style  
Going out in style

What happened on the loading dock  
A hundred workers turned their heads and cried aloud  
In the death garage (they cried aloud)  
In the death garage

What happened to the singer's voice  
He started singing with a tube inside his head  
In the death garage (inside his head)  
In the death garage

Start the car  
Close the door  
There is nothing quite like  
Going out in style  
Going out in style

Start the car  
Close the door  
There is nothing quite like  
Going out in style  
Going out in style

Never mind the bruises and blood  
The cause of death was carbon monoxide  
In the death garage  
In the death garage

What happens when the night time comes  
The little lovers light their lamps and then they sing  
In the death garage (and then they sing)  
In the death garage (and then they sing)  
In the death garage (and then they sing)
