

Holiday Spirit

The dB's

I've got that holiday spirit
Living living living living living
I've got that holiday spirit
Giving giving giving giving giving
I went on a shopping spree
I wanna be your Christmas tree
Watch me change from red to green to red

I've got that holiday spirit
Living living living living living
I've got that holiday spirit
Giving giving giving giving giving
Put on your woolen cap
We're gonna sit in Santa's lap
Too many gifts for us to wrap

I've got that holiday spirit
Living living living living living
I've got that holiday spirit
Giving giving giving giving giving
Next stop is New Year's Eve
But then it gives us time to breathe
I wanna be your Christmas tree from now on

Santa comes when no one's looking
Let me up inside your stocking
I'll be sure to tell him what we want
What we want

I've got that holiday spirit
Living living living living living
