

## Modern Boys And Girls

The dB's

Some people work very hard  
And some people just die trying  
And if I had something to believe in  
I'd be right beside them dying

Some people get it in the end  
And some people just don't get it  
And other people have too much to do at home  
And so they say forget it

And as it occurs to me  
These modern boys and girls  
These modern boys and girls  
These modern boys and girls are in it with us  
It's not just here and now  
It's all along the world  
These modern boys and girls, will they forgive us

And what do you say  
When someone asks you what to expect  
Smile and be brave  
And always be prepared for them to send their regrets

Some people never amount to much  
And some don't amount to any  
And any roll of coins that you might have around the house  
Just lacks a penny

And as it occurs to me  
Well these modern boys and girls  
These modern boys and girls  
These modern boys and girls are in it with us  
It's not just here and now  
It's all along the world  
These modern boys and girls, will they forgive us

Yes these modern boys and girls  
These modern boys and girls  
These modern boys and girls are in it with us  
It's not just here and now  
It's all along the world  
These modern boys and girls will they forgive us  
I hope so
