

Neverland

The dB's

You're asking where did my love go?
I tell you really I don't know
She left me here with just one word
The one thing that I heard
The one thing that I heard

Well, it was never never neverland
It was never never neverland
You will never, ever understand
Neverland

She always said it won't work out
I went ahead, I had no doubt
She always said it would not work
Now I feel like one big jerk
I feel like one big hurt

Well, it was never never neverland
It was never never neverland
You will never, ever understand
Neverland

You're asking what will I do now
What does it matter anyhow?
I gave her everything I had
Everything I bought
Everything I got
The one thing I forgot
The one thing I forgot

Well, it was never never neverland
It was never never neverland
You will never, ever understand
It was never never neverland
