

She Got Soul

The dB's

She is not your average girl
Every girl I know is not your average girl
What you know and what you do
And who you get to do it to
She is not your average girl

She got soul but I don't know
Every girl I know has got some soul
Wrapped around her finger like a twenty dollar ring
She got soul but I don't know

Yeh she got soul
She got soul
She got soul

And when I try to reach conclusions
My hand slips, my tongue trips
And I fall
I fall

She got soul but I don't know
Every girl I know has got some soul
Wrapped around her finger like a twenty dollar ring
She got soul but I don't know
She got soul but I don't know

Yeh she got soul
She got soul
She got soul
