

She's Not Worried

The dB's

She's not bothered by the foolish way I lead my life
'Cause she knows it'll be over soon
And it will so, she won't worry, worry now

Sometimes I don't say the silly words she wants to hear
But you know they're always on my mind
And it's so fine
She won't worry, worry now

Outside walk in the cold and the rain pours down
As when I collapse right in her face

Was it the second time
I thought I'd turned this thing around
But that's not what I wanna do
Maybe she knew
I won't worry, worry now

Outside walk in the cold and the rain pours down
As when I collapse right in her face

She's not bothered by the foolish way I lead my life
'Cause she knows it'll be over soon
And it will so, she won't worry, worry now
