

# Visible Man

The dB's

Look at my face and hands  
I'm the visible man  
You can see right through me  
I got blood veins  
Look like water mains  
It's nothing to me

To show you what I'm made of  
Hair and flesh and bones and blood  
Look at my face and hands  
That is, if you can  
I'm the visible man

I am Joe's heart  
And I am Joe's hand  
And I am Joe's lung  
I'm the visible man  
I'm the visible man  
Indivisible man

I got a big heart  
You can tear it apart  
But put it back together  
Cause if you lose a piece  
That's the end of me  
Put me away forever  
I'll be a friend to you  
Do what you want me to  
We can learn what we can  
You don't learn about  
The parts they left out  
Of the visible man

I am Joe's head  
And I am Joe's leg  
And I am Joe's mind  
I'm the visible man  
I'm the visible man  
Indivisible man

It's like a bad dream  
It's like a horrible scene  
From someone's nightmare  
You don't sleep at night  
You just absorb the light  
When you're the visible man

I am Joe's heart  
And I am Joe's hand  
And I am Joe's lung  
I'm the visible man  
I'm the visible man  
Indivisible man

I am Joe's head  
And I am Joe's leg  
And I am Joe's mind

I'm the visible man  
I'm the visible man  
Indivisible man
