

What About That Cat

The dB's

What about that cat
What will he do now
He's out there on the run
He's carrying a gun

What about his ma
What about his pa
They're out there looking for him
It's looking pretty grim
No no no no

But you know where he's at
And what about that cat
He's out there running 'round tonight
He's inside, inside, outside

What about the girl
That he left behind
She's out shopping around
At the five and dime

What about the dreams
That we used to share
They vanish in despair
Familiar vacant stare
No no no no

'Cause you know where she's at
What about that cat
He's out there running 'round tonight
He's inside, inside, outside
He's outside

What about that cat
You know where he's at
He's inside, inside, outside

What about that cat
What will he do now
His clothes are soaking wet
And it's not over yet

What about the dreams
That we used to share
They vanish in the air
A cat going nowhere
No no no no

There's that cat and he's going down for the last time
