

You Got It Wrong

The dB's

I told a lie, so what is new
You should have known that's what I'd do
You got it wrong
You got it wrong

After the time we spent apart
How could you be so quick so sharp
You got it wrong
You got it wrong

You read about it every night
The way we kiss the way we fight
You got it
You got it

In every dream there's not a sound
Yeah, that's the way you put me down
You got it
You got it
You got it
But you got it wrong

I read about that in a book
The way you think's the way you look
You got it wrong
You got it wrong

I close the book, I lose my place
You're not that easy to erase
You got it wrong
You got it wrong

Remembered days, they seemed so long
And then to me?, each night I thought
You got it
You got it

Thinking about it to a T
This crazy thing is not like me
You got it
You got it
You got it
But you got it wrong

You got it wrong, you got it wrong
You got it wrong, you got it wrong
You got it wrong, you got it wrong
Hey! You got it wrong, you got it
