The Dead 60s

There's something shaking from my head to my feet  
I watch the house lights going off in my street  
Real night vision, my only desire  
And as it fades to nothing we go

Down in the heart of the nation  
Out cause the weekend is calling me in  
But I'm trying to follow  
The tick tick tick at the heart of the nation

There's someone watching on CCTV  
24 hours I'm stuck on a screen  
Lost in the shadow they follow me round  
And I will fade to nothing as we go

Down in the heart of the nation  
Out cause the weekend is calling me in  
But I'm trying to follow  
The tick tick tick at the heart of the nation

Down in the heart of the nation  
Out cause the weekend is calling me in  
But I'm trying to follow  
The tick tick tick at the heart of the nation
