

How Deep Is The Water

The Dead Brothers

How deep is the water?
How high is the sky?
How deep is that love
You said was mine?
That deep dark river
It looks so cold
But I'm sure
You'll never leave me alone

How deep is the water?
How high is the sky?
Who cares what the people
might say?
The sea is always deeper
where it's blue
I'll go anywhere, oh anywhere with you

How deep is the water?
How high is the sky?
Will you forever be mine?
Look how pale the moon shines
From below the waves
Peace rests at the bottom
Of my dreams

How deep is that water?
How cold is the night?
Heaven is silent for those
With no name
Of course I was dreaming
Of another train
But I blew
The only chance I have

How deep is the water?
How high is the sky?
We all know the path
...Is narrow
That it leads
...To nowhere
But tell me: Do you have
Somewhere else to go?
