

# I Started To Hate You

The Dead Milkmen

This song fits the mood I'm in  
Trying to push something out of a pen  
Don't know how, where or when  
I started to hate you (x6)

It's kinda hard to explain  
Your stories are never what you claim  
After I played your little game  
I started to hate you (x10)

You used to be my friend  
All those letters that you'd send  
Suddenly they stopped and then  
I started to hate you (x6)

I thought you were so cool  
I wished that I went to your school  
Then I broke my only rule  
I started to hate you (x10)

Wonder how you can be so mean  
You're never really what you seem  
I never was a part of your dream  
I started to hate you (x10)

I hate you just go away  
I hate you just stay away  
Don't wanna see you today  
I hate you just go away  
(x2)
