I Started To Hate You

The Dead Milkmen

This song fits the mood I'm in
Trying to push something out of a pen
Don't know how, where or when
I started to hate you (x6)

It's kinda hard to explain Your stories are never what you claim After I played your little game I started to hate you (x10)

You used to be my friend All those letters that you'd send Suddenly they stopped and then I started to hate you (x6)

I thought you were so cool
I wished that I went to your school
Then I broke my only rule
I started to hate you (x10)

Wonder how you can be so mean You're never really what you seem I never was a part of your dream I started to hate you (x10)

I hate you just go away
I hate you just stay away
Don't wanna see you today
I hate you just go away
(x2)
