

# The Badger Song

## The Dead Milkmen

Out in the woods, up to no good  
I wanna make friends with the badger  
The woodchuck likes me, we smoke PCP  
I wanna make friends with the badger

I mean it, I wanna make friends with the badger  
For real, I wanna make friends with the  
Wanna make friends with the  
Wanna make friends with the badger

Get drunk with owls, drop acid with cows  
I wanna make friends with the badger  
I'll stand on my head till I'm legally dead  
I wanna make friends with the badger

From the heart, I wanna make friends with the badger  
You know it, I wanna make friends with the  
Wanna make friends with the  
Wanna make friends with the badger

I wanna make friends with the badger  
I wanna make friends with the badger

The badger's your friend  
Make friends with the badger  
The badger's your friend  
Make friends with the badger

The badger's your friend  
Make friends with the badger  
The badger's your friend  
Make friends with the badger

The badger's your friend  
I wanna make friends with the badger

Climbing the trees, spreading disease  
I wanna make friends with the badger

I wouldn't lie, I wanna make friends with the badger  
He's my buddy, I wanna make friends with the  
Wanna make friends with the  
Wanna make friends with the badger

I wanna make friends with the badger

The badger's your friend  
Make friends with the badger  
The badger's your friend  
Make friends with the badger

The badger's your friend  
Make friends with the badger  
The badger's your friend  
Make love to the badger

The badger's your friend

I wanna make friends with the badger

Smoking the leaves, I do what I please  
I wanna make friends with the badger

I wanna make friends with the badger  
I wanna make friends with the  
Wanna make friends with the  
Wanna make friends with the badger

I wanna make friends with the badger
