

Bats In The Belfry

The Dead Rabbits

Bats in the belfry
Bats in the belfry

I can feel my mind slip away and I feel so ashamed,
it's so pathetic how I've let this take control of me,
I've got no one to blame, yea the culprit is me.
I've dug my own grave what was i thinking?

I won't let this take my life,
I won't let this take my mind

I'm terrorized in my mind, thoughts like a parasite
can't sleep at night, welcome to my life
the old me is dead and gone, it's time to say goodbye
this time I rise, I will survive

Bats in the belfry

I look back to the places I've been and the choices I've made
and to be honest im not fond of the majority,
we learn from our mistakes redeem humanity
so am I crazy or just over-thinking?

I wont let this take my life,
I wont let this take my mind

I'm terrorized in my mind, thoughts like a parasite
can't sleep at night, welcome to my life
the old me is dead and gone, it's time to say goodbye
this time I rise, I will survive

I wont let this take my life,
I wont let this take my mind

I'm terrorized in my mind, thoughts like a parasite
can't sleep at night, welcome to my life
the old me is dead and gone, it's time to say goodbye
this time I rise, I will survive
