

Black Cloud

The Dead Rabbits

These shadows they haunt me
These voices in my head foreboding
This black cloud it haunts me
It's presence takes hold upon me

Now I'm rising up like the phoenix
If you try and stop me now
You're never gonna make it out alive
Make it out alive no
You tried to wipe the Earth clean of me
You tried to take away everything
Now I'm taking flight
I'm at the edge
I'm seeing the light

Exposed now
They see me and everything I am
No hiding
Feel no shame
Uprising
The darkness can be so enlightening

Now I'm rising up like the phoenix
If you try and stop me now
You're never gonna make it out alive
Make it out alive no
You tried to wipe the Earth clean of me
You tried to take away everything
Now I'm taking flight
I'm at the edge
I'm seeing the light

Now I don't care about the shit that used to bother me
All my worries and fears crumble before me
Why care about all of the petty crap that people say?
Stand up dust yourself off and fly away

Now I'm rising up like the phoenix
If you try and stop me now
You're never gonna make it out alive
Make it out alive no
You tried to wipe the Earth clean of me
You tried to take away everything from me
Now I'm taking flight
I'm at the edge
I'm seeing the light
