

Make Me Believe It

The Dead Rabbits

You feed me lies, when what I hunger for is truth,
I can see it in you, that you really know how to consume,
My heart, my heart,
You be my anchor, I'll be your knight in shining armor.

I feel like I've been at this, for so long
Why do you dwell in silence?
Did i do something wrong?

I'm not your enemy, when will you say to me.

When will you say you love me!?
Make me believe it, make me believe it.
When will you say, say, say it's ok?
Make me believe it, make me believe it.

Delight me with your beauty, enchant me with your brilliant way
s,
How have I still been at this? For so long,
Over and over again, did I do something wrong?

I'm not your enemy, when will you say to me.

When will you say you love me!?
Make me believe it, make me believe it.
When will you say, say, say it's ok?
Make me believe it, make me believe it.

Believe me!
When will you say it!?

I'm not your enemy,
When will you say to me.

I'm not your enemy,
This stress is killing me.
I'm not your enemy,
Bury my head till it's over!
