

## Gasoline

## The Dead Weather

To be afraid is a luxury  
Don't cool your engines for me  
I don't want a sweetheart  
I want a machine

I love you the most, I do  
When you're so close to me  
I can smell the gasoline

To be soft is too easy, huh  
Don't get soft on me  
I don't want a sweetheart, sweetheart  
I want a machine

I love you the most, I do  
When you're so close to me  
I can smell the gasoline

To be afraid is a luxury  
Don't cool your engines for me  
I don't want a sweetheart  
I want a machine

I love you the most, I do  
When you're so close to me  
I can smell the gasoline

What you whispered should be screamed  
Screamed at the top of your lungs  
Any sense you had in the morning  
Is gone when the day is done

I love you the most, I do  
When you're so close to me  
I can smell the gasoline
