

## Evil Gogo Babe From Outer Space

The Dead

Come on baby, sweet sugar honey  
Come on girl and trust in me  
Your bring me down, over and out  
You are falling - falling to the ground

Four lips working well on me  
Desired flesh wrapped around my skin  
Like a belching vulcano  
She's riding toward the realm of passion

Greedy screams of lust  
She's a gogo teaser - a demon queen  
Our flesh reduced to one  
And I'm overloaded
