Evil Gogo Babe From Outer Space

The Dead

Come on baby, sweet sugar honey Come on girl and trust in me Your bring me down, over and out You are falling - falling to the ground

Four lips working well on me Desired flesh wrapped around my skin Like a belching vulcano She's riding toward the realm of passion

Greedy screams of lust She's a gogo teaser - a demon queen Our flesh reduced to one And I'm overloaded

Evil Gogo Babe from Outer Space
