

# The Bitter Suite IV and V: The Congregation and the Sermon in the Silt

The Dear Hunter

[The Congregation:]

They come in crowds to hear him speak  
And he will greet them in a Smile that sticks like Vaseline  
So do your best to keep your distance, in this instance  
You're a stranger in the weeds  
Some things are better left unseen

Commanding listeners to believe  
Manipulations of narrations 'Anno Domini'  
Not with a whimper, but a bang  
He'll take the stage and leave their jaws upon the floor  
Begging for more

So Father, won't you tend your flock and save us now?  
Won't you save us now?  
Come and save us

[The Sermon:]

I hear you're looking for god  
Well I can show you the way just as long as you can pay  
But the price is going up...  
And like a prayer to the air  
We deliver you to glory (Pay up')  
I swear you'll get what you need  
And we Can lead you to salvation  
With the right denomination  
It all lies in your hands  
Or in your pocketbook to be more demanding

Don't you tread too close to the line this time  
Don't get lead too close to the light this time  
You went far too close to the line this time  
Line this time

Hey! Hey kid! Hey kid - get a god!  
Hey! Hey Hey Hey! Hey Kid Get A god!

So you committed a sin?  
Well, we can rid that with a remedy  
The bidding starts at \$70  
Sold!  
To one and all now  
Get your hands ready to make a withdrawal  
You've got no other way to find what you Want  
If it's a saving that you're craving  
And your confidence is fading  
Be calm  
The Doctor's in  
I got the cure, because I know where you've been...

Don't you tread too Close to the line this time  
Don't get lead too close to the light this time  
You went far Too close to the line this time  
Line this time

[x3]

If you wanna get up

Reserve a Room on high  
Put your coins in my hat  
And don't ask why

Don't you tread too close to the line this time  
Don't get lead too close to the light this time  
You went far too close to the line this time  
Line this time  
Line this time
