

New Approach

The Defiled

Silence the only relief
Welcome to your ultimate low
Feeling so hard-done-by
The time has come to make you believe

Vexed and concerned only now that you're threatened
Pathetic detached absentee

This is the hardship of being
This is the state of us all
We're empty vessels daydreaming
With no intervening, it's time for a new approach

Look forward to one day soon
When you're shunned by every companion
Give up surrender surpass
Too little too fucking late

Vexed and concerned only now that you're threatened
Pathetic detached absentee

This is the hardship of being
This is the state of us all
We're empty vessels daydreaming
With no intervening, it's time for a new approach
