

## The Infection

## The Defiled

Claw it back with injured hands  
They so love to ignore

There's not way to know  
How long we've held on to these lies

Speak out and take control  
Somehow we'll make it through  
No they can't take us all

We are the ones you tried to hide  
We are the infection deep inside

They could never hold us back  
Their time has come and gone

Always look our way in doubt,  
Their patronising eyes

So speak out and take control  
Somehow we'll make it through  
No they can't take us all

We are the ones you tried to hide  
We are the infectious deep inside

Can we find a better way?  
Pushed aside and led astray  
Letting go of nothing is so easy
