

# Walk Right Up To The Sun

The Delfonics

And then we'll  
Walk right up to the sun  
Hand in hand  
Walk right up to the sun  
We won't fear anyone

I'll pull the moon  
Out of the sky for you  
If you promise me  
A love that's true

I'll change the world  
From old to new  
Love was made just for two

I'll take a rainbow  
From the sky for you  
If one's not good enough  
I'll bring you two

I'll change the skies  
From gray to blue  
Love was made just for two

Listen, baby

Change the world  
From old to new  
Love was made just for two

And then we'll  
Walk right up to the sun  
Hand in hand  
Walk right up to the sun  
We won't fear

Walk right up to the sun  
Hand in hand  
Walk right up to the sun  
We won't fear

Walk right up to the sun
