

Make Your Move

The Delgados

Finish what you've started here
You make your move just once a year
In the city in the town
Your happy home is never found
Second hand was never planned
The birth was over, the baby banned
She fled the place at such a pace
She never even saw your face
So go with me
Inside
Believe
You have so much to give

Switch the light off, have a go
Force the only one you know
To leave this place without a trace
A pity I had seen your face
Where do you think I will find
This party girl who was so kind?
Raven hair and skin so fair
Sadness never visits there

So go with me
Inside
Believe
You have so much to give
