

# The Light Before We Land

The Delgados

In cases such as these I'd like a hand  
Don't wake me up without a master plan  
With silence I'm becoming fragile  
Don't you understand?  
When things that once were beautiful  
Are bland

And when I feel like I can feel once again  
Let me stay awhile  
Soak it in awhile  
If we can hold on we can fix what is wrong  
Buy a little time  
For this head of mine  
Haven for us

In truth there is no better place to be  
Than falling out of darkness still to see

Without a premonition  
Could you tell me where we stand?  
I'd hate to lose this light  
Before we land

And when I feel like I can feel once again  
Let me stay awhile  
Soak it in awhile  
If we can hold on we can fix what is wrong  
Buy a little time  
For this head of mine  
Haven for us

Before we let euphoria  
Convince us we are free  
Remind us how we used to feel  
Before when life was real

And when I feel like I can feel once again  
Let me stay awhile  
Soak it in awhile  
If we can hold on we can fix what is wrong  
Buy a little time  
For this head of mine  
Haven for us
