If you stay-ay-ay darling (stay in my corner)
You make me so proud, stay darling
Please stay in my corner
To the world I'd cry my love

How I love you
Honey I love you, I really love you
Please, please, please stay darling
And I will never never let you down

Just say you'll stay
Stay in my corner
'Cause I'll need you always around
To tell me you love me
Honey love me, so darling stay

There'll be times when I may fail I'll need your love to comfort me But if these may prevail But just a kiss from you

Will make things sweet MMM stay, ohhhhh stay One more time baby But just a kiss from you

Will make things sweet Honey I love you, I love you I love you
