

Dirty Words

The Departure

How many days in the weekend?
We should follow this one
How many days in the weekend?
We should follow this one
How many times do her eyes have to meet yours?
How many days in the weekend?
We should follow this one

Think of the lines you could've said
Pick me up, oh they're just dirty words
Think of the thoughts running around her head

She'd be game if you would just play
She'd be game if you would just play
She'd be game if you would just play
Oh, if you would just play

How many days in the weekend?
Take me out of this one
How many days in the weekend?
Take me out of this one
You blew all your chances but so what?
How many days in the weekend?
Take me out of this one

If life is a teacher then I'll be a preacher's son
Well it's a steady job
At least it's a steady job
Look what you've got yourself into
I said look what you've got yourself into

Oh they're just dirty words (8x)
