For My Brother

The Derek Trucks Band

For my brother, for my brother For my brother, for my brother

For my brother, for my brother For my brother, for my brother

In the battle for the california sun The windows up against you hangin' around again Things are pushin' on they're way No one here is pulling their punches I wish I was allowed to say Imagine just how much it is for

For my brother, for my brother For my brother, for my brother

The heat and the sidewalk take me in - ?? It's time I think about the greatest sound I've ever known Teach a man to kiss your feet Teach a man to hold his thunder Come across a great emotion Strong enough to pull you under

For my brother, for my brother For my brother, for my brother
