

I Know

The Derek Trucks Band

I wanna know how it feels to be kissed
Cold chills running up and down my spine
I wanna know how it feels to be talked to
Until words drive me stoned out my mind

I know how it feels to be lonely
I know how it feels to be blue
Come and show me how it feels to really be loved
And I spend my time loving you

I wanna know how it feels to be needed
I wanna know by the end of the night
I wanna know how it feels to have a girl
Who loves me and treats me just right

I know how it feels to be cheated on
I know how it feels to be blue
Come and show me how it feels to really be loved
And I spend my time loving you

Well I know there's pot of gold at the end of the rainbow
That was such a long time ago
Come and show me how it feels to really be loved
And I won't be blue anymore

Hold on, baby hold on.
Love me, try love me
I wanna know, I wanna know, I wanna know how it feels
To be loved
