

## Gracefully Facedown

### The Devil Makes Three

Lately things ain't been going my way  
Consequently I've been drinking nearly every day  
It's hard to keep your head up when they're knocking you down  
So I been making that all go round  
Drinking bottom shelf bourbon to ease my mind  
Seems to work alright 'til closing time  
But you know you're gonna come down every night  
And there ain't no way you'll ever feel satisfied  
Ain't that hard to figure where to begin  
It's Friday night so I'm rushing in  
Like a fool I get it anywhere I can

Well I've been having a hard time  
Walking a straight line  
Seeing two of every single neon sign  
Well now you'll find me downtown  
Gracefully face down  
Just wishing I could feel alright

Well lately I've been wanderin around with eyes closed  
It seems like I been heading down the wrong road  
Thought I'd find my way by now  
But I still got lost somehow  
Y'hear shots fall down from Heaven above  
You might lose a friend you might fall in love  
But you know you're gonna come down every night  
And there ain't no way you'll ever feel satisfied  
Six in the morning 'til your dying day  
It's straight bad news and bills to pay  
But come five o'clock you're feeling good again

Well I've been having a hard time  
Walking a straight line  
Seeing two of every single neon sign  
Well now you'll find me downtown  
Gracefully face down  
Just wishing I could feel alright

Well I been so high I hit my head on the ground  
Sat up on the floor seems the room spin around  
But when you squint real hard through the bottom of the bottle  
Things really don't look so bad  
You drink a cheap malt liquor from a 40 ounce bottle  
Swig some bourbon, some pills if you've got 'em  
But you know you're gonna come down every night  
And there ain't no way you're ever gonna feel satisfied  
There's years of my life I don't remember at all  
Like one Friday evening I can barely recall  
It was a sick situation in a bar room bathroom stall

Well I've been having a hard time  
Walking a straight line  
Seeing two of every single neon sign  
Well now you'll find me downtown  
Gracefully face down  
Just wishing I could feel alright

Yeah I been wishing I could feel alright  
Yeah I been wishing I could feel alright
