

## River Deep

### The Devil Makes Three

When you're livin' in a town like this  
It's easy to sit back and just forget  
That the world keeps on spinnin' round and round  
Round and round, round and round

The beast is bitter, sink its teeth in deep  
She'll bite you while you're dreamin', send you off to your sleep  
And you carry, you carry on down, on down, on down  
Down that river deep

When you're sittin' in the city large  
Just laid back lazy starrin' to the stars  
You're still just laying right where you are,  
Where you are, where you are

The beast is bitter, sink its teeth in deep  
She'll bite you while you're dreamin' send you off to your sleep  
And you carry, you carry on down, on down, on down  
Down that river deep

You're sittin' in a hole just a-wonderin' why  
Stagnation's singin' to you like a lullaby  
But 'til you move boy there you are  
There you are, there you are

The beast is bitter, sink its teeth in deep  
She'll bite you while you're dreamin' send you off to your sleep  
And you carry, you carry on down, on down, on down  
Down that river deep
