

Coming Alive

The Devlins

In time we'll be replaced, you and I
So pick it up, move over here
I want you now
And the moment, forever yours forever mine
The day is over, I feel myself come alive

Coming alive, your desire burning in the night
Coming alive, when I get that feeling..

Sometimes, I feel a weight it's bearing down
And when it's decided, don't try to fight it, let it go
Nobody knows the places we go..

Coming alive, your desire killing me tonight
Coming alive, your desire burning in the night
Nobody knows the places we go..

Coming alive, your desire burning in the night
Coming alive, when I get that feeling..
Coming alive, your desire burning in the night
Coming alive, your desire burning in the night
I'm coming alive
I'm coming alive
Coming alive
I'm coming alive
