

## Consent

The Devlins

I would give anything just to be with you  
Give you the dreams I'm having, just to be with you  
Somebody said I needed your consent  
That's what I'm working on  
Your consent  
Is that so wrong?

Give you the stars from heaven,  
If you give me a sign  
My body in your body, time is a friend of mine  
I guess I need your consent  
That's what I'm working on  
Your consent  
Is that so wrong?

Why you wanna spend your time with some player mother fucker Ba  
by you were born to be free  
Why you wanna sell yourself like some rich man's toy  
Is that what you're suppose to be?  
Some day you're gonna to wake up  
Crying through your makeup  
And wish that you were here with me, with me

And when I have it baby, I'm gonna to treat you right  
Love you in the daytime, make it right through the night

Your consent, your consent, your consent  
It's gonna be alright

Don't sell yourself now honey  
Don't sell yourself now honey
