

Headstrong

The Devlins

See the lovers fight in the street at night
See the traffic merge in the evening light
Did he break your heart so it could not fix?
Did he phase you out lose you in the mix?

You're so headstrong
You're so headstrong
You're so headstrong
You're so headstrong

Did he walk ahead and you fell behind?
Did you close your eyes till it left you blind?
And the time goes by but you feel the same
And you can't let go cause the hurt remains

You're so headstrong
You're so headstrong
You're so headstrong
You're so headstrong

I wanna shake you all night..

All the things that hurt you know, they're just a part of livin
g
All the things that hurt you know, they're just a part of livin
