

# Lazarus

The Devlins

Feel the love  
Feel the pain  
Feel the blood rush through your veins  
We set it up, so it's not right  
When all I need is, free tonight, tonight

So live the life you want, 'cause you won't make a sound, when  
you're in the ground  
And Lazarus is still walking...

The rain came down  
Flooded your place  
As two sound systems, were thumping bass  
It's all around, it's in yourself  
So don't leave wonder to someone else  
So live the life you want, 'cause you won't make a sound, when  
you're in the ground  
And Lazarus is still walking...

It's all worked out, you can't change that  
Mercury's perfect in it's ascent  
When I was down, you came around and made it alright and made i  
t alright  
You made it alright

So love the one you've found, it can't be that hard  
Turning it around, making a new start  
And live the life you want, 'cause you won't make a sound, when  
you're in the ground  
And Lazarus is still walking...  
And Lazarus is still walking...
