

## Waves

The Devlins

I like the way you look at me  
'Cause nothing here is guaranteed  
Work so hard to get paid  
Here alone it feels ok

You beat these things, you ride these waves  
Someday soon our luck will change  
You beat these things, ride these waves  
Some day soon our luck will change

I don't know where I belong  
Can't stay down got to move on  
You give me strength to defeat  
The steel in my soul, steel on the streets

Beneath the concrete lies the beach  
In my hands not out of reach

You beat these things, you ride these waves  
Some day soon our luck will change  
Ride these waves..

Days add up, life goes on  
Rent comes due, spring comes fall  
I take you out, I dance with you  
And fade to black from neon blue  
Somewhere in the dead of night  
Our memories remain in light

You beat these things, you ride these waves  
Some day soon our luck will change  
Ride these waves  
Ride these waves

Our luck is going to change  
Luck is going to change...
