

# Wide Open

The Devlins

Let's sit down face to face  
Close our eyes and leave the race  
Slow it down a little  
Get centred in the middle  
Yeah, wide open  
Wide open now  
So tired of waiting for things to turn around again

'Cause I'm wide open now  
Wide open  
Somethin' has changed  
But then everything changes  
Wide open  
There's no need to drop the bomb  
Draw the blade or throw the stone  
It's past midnight now  
And these clean white sheets, you know  
They don't care 'bout yesterday  
Wide open now  
So tired of waiting for things to turn around again

'Cause I'm wide open now  
Wide open  
Somethin' has changed  
But then everything changes  
Why would we waste this?

'Cause I'm wide open now  
Wide open  
Somethin' has changed  
But then everything changes  
Wide open now  
Why would we waste this?  
Why would we waste this?
