

# Let Me Out

The Dickies

let me out  
come and get me out  
'cause i've been stuck here for too long  
let me out out  
come and get me out  
baby baby be where i belong  
the time right for standing under light  
my cup is full and i'll be pulling the wool tonight tonight

let me out  
come and get me out  
you know that she don't understand  
let me out out  
come and get me out  
baby now i'm living for the band  
it's getting tighter and i'm feeling the bite  
but i don't care because i'm getting my chance tonight tonight  
tonight tonight

let me out  
come get me out  
i'm just a prisoner of your love  
let me out out  
come and get me out  
baby i will never have enough  
i guess i'm getting while the getting is right  
she made me thinking but i'm taking my chance tonight tonight,  
tonight, tonight

let me out let me out let me out...
