

Pig Latin

The Dillinger Escape Plan

Do you remember where you were on that day?

A day of life sentences and x-rays

My name was on that birthday cake

[Chinga]

Your mother, your father, your brother, and the thing under the covers

Your lover, the others, the leeches, and the serpents and the suckers

Your mother, your father, the babies and the nurses and the doctors

Your lover, the others, the waiting room, the gurney and the druggers

Your mother, your father, the comas and the way the spirits hover

Your lover, the others, I thought I wasn't smart enough to suffer

Speaking pig latin

Kiss me goodnight

Dreaming white satin

Kiss me goodnight

Freedom - tying your legs down

Freedom - fucking your brains out

Freedom - blowing the candles out

Freedom - waving to the crowd

And I hate long goodbyes anyway...
