

The Perfect Design

The Dillinger Escape Plan

Motions that make gods cringe
Running in circles as fast as we can
Take what you can 'cause now it's all over
Run hot and cold to break the skin, break the skin

And we won't take no for an answer
For just when the door slams
The pill drops, oh my sweet unknowing partner
The perfect design

The pill drops so start the silent dance
Slumping silhouette, unforgiving hands
Harboring regret
Play it just once more for old times

Yeah you know, you know, you know you're all I ever wanted
Yeah you know, you know, you know you're all I ever wanted

How we laughed when we first saw each other
How you screamed when I saw your eyes melting
This is the end of every rainbow
And now your face shatters

Every waking second I know your face shatters
Every waking second I know your face shatters
