

Can I quit?  
Venom when I spit  
Let it rip  
Think I cannabis  
Take a hit  
I'm a catalyst of cool shit  
Colder than a bitch (Everest)  
Masochist  
Tell 'em I am sick  
Yes I burn  
Kinda like a witch  
I have earned everything I get  
I don't trip  
You ain't really shit  
Oh shit now  
Ocean sound  
I need a pound  
Get me in trouble  
Sleep walking around  
Cloudlifter  
Shrouded in smoke from my tongue  
Sun twister, I blister melt from the sky

Clydesdales running free man  
High as hell let me be man  
Ain't afraid of burning trees down  
So let it rain and feel the wind blow  
Cut my chains and let my rains go  
It's my time it's time to reload  
Can't stop me when it's time to ride  
And Imma go where I wanna go  
Oh no what's that sound I hear in my head?  
I've been sleepwalking for miles on end  
Cloudlifter shape shifter changing the wind  
Oh please forgive me for all of my sins
