

Slow Down

The Dirty Heads

We all running in the same race
Ain't nobody winning
We only here for a minute
So everybody slow down

Ya, life is beautiful
Let's all take a moment now
Let's just try to breath it in
Let's go get some feelings out
Let's try to remember what it felt like to be young and free
Ya those days are gone but they'll be better ones ahead you'll see

And it's been on my mind, it's been on my mind
It takes up all my time, oh ya all my time
We've been searching for some things that we may never find
But in the end ya I know it's all love

We all running in the same race
Ain't nobody winning
We only here for a minute
So everybody slow down
We all headed to the same place
So we better get to livin'
We only here for a minute
So everybody slow down

I see mountains in the distance, ya they're calling me
Open river water far away from everything
I think about getting away everyday

And it's been on my mind, it's been on my mind
It takes up all my time, oh ya all my time
We've been searching for some things that we may never find
But in the end ya I know it's all love

We all running in the same race
Ain't nobody winning
We only here for a minute
So everybody slow down
We all headed to the same place
So we better get to livin'
We only here for a minute
So everybody slow down

We all running in the same race
Ain't nobody winning
We only here for a minute
So everybody slow down
We all headed to the same place
So we better get to livin'
We only here for a minute
So everybody slow down
