

Strike Gently

The Dirty Heads

Hit me with your love
Strike gently
I can't get enough
So simply
Hit me with your love
Strike gently
I can't get enough
Strike gently

You want to stay
They just wanna linger here
They won't go away
Oh no
And just when you swing
Upon down my neck
The pleasure you bring
Oh no

So you can stoke that fire high inside tonight
Gonna need the heat
So you can make that iron hot don't stop
And just take a swing down on me
And you can grab the handle
I'll be your anvil

Hit me with your love
Strike gently
I can't get enough
So simply
Hit me with your love
Strike gently
I can't get enough
Strike gently

I've singled it out
The reason I have no fear
If you cut me down
Oh no
It's something that's real
You give when I'm in need
It's just for the feel
Oh no

Well you can stoke that fire high inside tonight
Gonna need the heat
So you can make that iron hot don't stop
And just take a swing down on me
And you can grab the handle
I'll be the anvil

Hit me with your love
Strike gently
I can't get enough
So simply
Hit me with your love
Strike gently
I can't get enough

Strike gently
