

Bedroom Karate

The Dirty Youth

Your heart beats fast
You close your eyes and pray it lasts forever
Forever (forever)
You raise your hands
Reach for the sky, don't question why we're together
We're together (together)

I can feel this burning inside

You can be my date, we can stay out late
Talk about the things that turn you on
When you're my date, the night goes on and on and on and on
Aftershow party, bedroom karate
Talk about the things that turn you on
When you're my date, the night goes on and on and on and on

We're moving too fast
I can't slow down, no I can't slow down
Let go, let go
A cigarette break 'round the back
Where you kiss my neck and say you want me
Light up, light up

I can feel this burning inside

You can be my date, we can stay out late
Talk about the things that turn you on
When you're my date, the night goes on and on and on and on
Aftershow party, bedroom karate
Talk about the things that turn you on
When you're my date, the night goes on and on and on and on

You stop, you turn, you look at me
Your eyes, they're fixed, they're fixed on me
You're so turned on, it's plain to see
Your luck is in, so follow me

You can be my date, we can stay out late
Talk about the things that turn you on
When you're my date, the night goes on and on and on and on
Aftershow party, bedroom karate
Talk about the things that turn you on
When you're my date, the night goes on and on and on and on
