

Narcissistic Cannibal

The Dirty Youth

Don't wanna be sly and defile you
Desecrate my mind and rely on you
I just wanna break this crown, but it's hard when I'm so rundown
And you're so cynical, narcissistic cannibal
Time to bring myself back from the dead

Sometimes I hate the life I made
Everything's wrong everytime
Pushing on I can't escape
Everything that comes my way
It's haunting me, taking its sweet time

Holding on I'm lost in a haze.
Fighting life to the end of my days.

Don't wanna be rude but I have to.
Nothings good about the hell you put me through
I just need to look around, see the life that has come unbound.

And you're so cynical, narcissistic cannibal
Time to bring myself back from the dead

Sometimes I hate the life I made
Everything's wrong everytime
Pushing on I can't escape everything that comes my way.
It's haunting me, taking it's sweet time.

Sometimes I hate the life I made
Everything's wrong everytime
Pushing on I can't escape everything that comes my way.
It's haunting me, taking its sweet time.

Holding on I'm lost in a haze.
Fighting life to the end of my days.

Holding on I'm lost in a haze.
Fighting life to the end of my days.
