Generation Sex

The Divine Comedy

Generation sex Respects The rights Of girls Who want to take their clothes off As long as we can all watch that's okay And generation sex Elects The type Of guys You wouldn't leave your kids with And shouts "off with their heads" if they get laid Lovers watch their backs As hacks In macs Take snaps Through telephoto lenses Chase Mercedes Benzes through the night A mourning nation weeps And wails But keeps The sales Of evil tabloids healthy The poor protect the wealthy in this world Generation sex Injects The sperm Of worms Into the eggs of field mice So you can look real nice for the boys And generation sex Is me And you And we Should really all know better
